# Game, Set & Match

## NUTRIM SYMPOSIUM 2018

21 November 2018, Blauwe zaal, Universiteitssingel 50, Maastricht

We look forward to meet you at the Annual NUTRIM symposium to show recent scientific achievements, to exchange ideas and to stimulate interaction and collaboration.

This year, we will have special attention for our PhD-students. The theme reflects their expected career. They start their PhD and hopefully, at some point, they will publish their first scientific paper (Game). After that they will continue to publish, which will lead to a set of papers combined into a thesis (Set). Subsequently, they will continue their work with another employee and hopefully their expertise matches with the wishes of academia, government, NGOs or industry (& Match).
